

AQUA CONTROL
Aerator & Fountain
3 YEAR LIMITED WARRANTY

Aqua Control, Inc. warrants to the original purchaser (the end user) of any Aerator or Fountain manufactured by Aqua Control, Inc. after April 1, 1998, that any part thereof which proves to be defective in materials or workmanship, as determined by factory or authorized repair facility inspection, within three years from the shipping date, will be repaired or replaced at no charge with a new or remanufactured part, and returned freight prepaid. Exceptions are the Light Package light bulbs and lenses which carry a thirty (30) day warranty. The end user shall assume all responsibility and expense for removal, packaging, and freight to ship to Aqua Control or its designated repair facility, and for all reinstallation expenses.

The warranty is void in cases where damage results from: operation with no flow, continued operation with only partial flow, continued operation with obstructions that result in pump cavitation (noisy operation), improper electrical connection, improper voltage, alteration, lightning, careless handling, misuse, abuse, freezing, disassembly of motor, or failure to follow maintenance or operating instructions. Modification or repair by an unauthorized repair facility will void the warranty.

In no case will Aqua Control or its dealers accept responsibility for any costs incurred by the user during installation, removal, inspection, evaluation, repair, parts replacement, or for return freight. Nor will any liability be accepted for loss of use, loss of profits, loss of goodwill, for consequential damage, or for personal injuries to the purchaser or any person.

In the event of problems believed to be covered under warranty, it will be necessary to notify the dealer who will try to help resolve the problem and who may contact the factory for additional assistance. If it is concluded that there may be a defect which may be covered under warranty, it will be necessary to get a Return Material Authorization (RMA) from the dealer or the factory before shipment.

The Aerator, Fountain, or part(s) must be returned freight prepaid, to the factory or to an authorized repair facility, as directed, and in its original packaging or in a container which will prevent damage. Parts returned under warranty and damaged during shipping will not be covered under warranty for the shipping damage.

If the factory or authorized repair facility evaluation of the returned goods concludes that the failure is due to defects in materials or workmanship, the part or parts in question will be replaced under warranty with new parts, remanufactured parts, or will be repaired; at the factory's option. The warranty period for all parts supplied under warranty will terminate at the end of the original Aerator or Fountain warranty. All warranty return shipments from the repair location will be shipped freight prepaid.

Warranty registration forms and a pre-addressed envelope are provided with each new Aerator or Fountain. The warranty registration must be completed and returned within two weeks of arrival. Warranty work may not be performed until the warranty registration form has been fully completed and received by the factory.

No implied warranties of any kind are made by Aqua Control, Inc. for its Aerators or Fountains, and no other warranties, whether expressed or implied, including implied warranties of merchantability and fitness for a particular purpose, shall apply. Should an Aqua Control, Aerator or Fountain prove to be defective in materials or workmanship, the retail purchaser's sole remedy shall be repair or replacement of the Aerator or Fountain as expressly provided above.
